● #1500	4	5	6	7						
● #2000	5	6	7	8						
● #3000										
● #5000										

Depending on the material, machine type, or polishing heads the parameters and sequences may vary. For further details and assistance please contact our technical team.

Install the wheels of the corresponding size onto your multi-head line polisher in the proper polishing order as indicated in the table above.

Align the heads with the material being polished according to the machine manual.

Set the head pressure to the desired level that best suits the chosen grit.

Set the belt speed to 1 meter per minute.

Ensure adequate water flow is directed to each position.

RPM

2000 - 2500

Speed

80 - 200 cm/min
30 - 80 ipm

Suitable for

All materials

Pressure

2.0 - 2.5 Bar
29 - 36 Psi
